Application Number: 10/603,267  
Application Filed: 23 June, 2003  
Applicant: Kollar, Fredrick Phillip  
Title: Sprinkler Spray Shield  
Examiner/GAU: Seth Barney/3752

Laguna Hills, CA. 20 July, 2005

## Amendment A

Commissioner For Patents  
Alexandria, Virginia 22313

Sir:

In response to the Office Action mailed 12 July, 2005, please amend the above application as follows:

**Drawings:** The drawing objections made by the Examiner are noted and have been amended and/or corrected with new drawings and are being submitted herewith. The following amendments and corrections are as follows:

1. On Page 1, Fig. 1, the reference character used to designate the orienting shelf was noted as being incorrectly numbered with reference character "24" and has been corrected to show the orienting shelf as reference character "25".
2. On Page 2, Fig. 5 is an exploded view and was noted as not being bracketed and has been corrected by adding a bracket to the figure.
3. **Cancel Fig. 6.** On Page 2, Fig. 6 was noted as showing differing individual parts and was incorrectly bracketed and that each part of Fig. 6 should have had its own Fig.

number. It was determined that the other drawings were sufficient to visually describe the device and that Fig. 6 did not contribute enough in this regard to warrant remaining within the application. Fig. 6 has been cancelled on this page.

4. On Page 3, Fig. 7 has been renumbered and is now designated as Fig. 6.

5. On Page 3, Fig. 6 (formerly Fig. 7) is an exploded view and was noted as not being bracketed and has been corrected by adding a bracket to the figure.

6. On Page 3, Fig. 8 has been renumbered and is now designated as Fig. 7.

7. On Page 3, Fig. 9 was thought by the examiner to be unclear and that each part should have its own figure number. It was determined that the intention of the drawing was not properly executed. Fig. 9 has been cancelled on this page and the parts of the drawing have been separated with the intent of clarifying the intention of the drawing and are now designated Figs. 8a and 8b. The specification has been amended to reflect this change.

8. On Page 4, Fig. 10 has been renumbered and is now designated as Fig. 9.

9. On Page 4, Fig. 11 has been renumbered and is now designated as Fig. 10

10. On Page 4, Fig. 12 was noted as not being an exploded view and incorrectly bracketed. The examiner also noted that each part of Fig. 12 should be given a figure number. Fig. 12 was amended and each part of the figure has been given its own figure number. The designation "Fig. 11" and "Fig. 12" was given to each individual part.

#### **Overview of Drawing Amendments:**

Page 1, Fig. 1 has been corrected to show the orienting shelf as Ref. character 25.

Page 2, Fig. 5 has been corrected by adding a bracket to the figure.

Page 2, Fig. 6 has been cancelled on this page.

Page 3, Fig. 7 has been renumbered and is now designated as Fig. 6.

Page 3, Fig. 6 (formerly Fig. 7) has been corrected by adding a bracket to the figure.

Page 3, Fig. 8 has been renumbered and is now designated as Fig. 7.

Page 3, Fig. 9 has been cancelled on this page and the figures have been separated and renumbered as Figs. 8a and 8b.
